Dear Jan,

On behalf of Orangutan Foundation International (OFI), I would like to thank you for your kind donation made on August 3, 2017. This contribution in support of OFI's programs is greatly appreciated.

Through your generosity, Dr. Biruté Mary Galdikas, her colleagues, and the OFI Board are able to continue their work to save endangered orangutans and tropical rain forest. Orangutans in the wild are on the verge of extinction and the tropical rainforests, which are their only home, are disappearing – but OFI is working diligently to protect and preserve them.

The task of studying and protecting these noble creatures and their habitat is a complex one, and OFI maintains programs in education, conservation, and wildlife research to ensure the future of this highly endangered species.

More information may be found at our website at www.orangutan.org where we have updated news and facts from the Orangutan Care Center, Camp Leakey, and our educational and conservation outreach.

Thank you again for your generosity.

Warm Regards,

Dr. Biruté Mary Galdikas
President

Hello Jan Michael Pasboel,

I would like to thank you and everyone at The GCC Group for your generous donation to the Red Panda Network. Your support allows us to continue to make great strides toward raising awareness of red panda throughout the world and catalyze action towards their conservation.

With your generosity, our red panda conservation work will continue to be impactful. Again, from our staff in Nepal and the US, we thank you.

With gratitude,

Terrance Fleming
Outreach and Membership Coordinator

Dear *St & Madam,*

News has just arrived of your generous donation to Save the Elephants. Thank you so very much, and welcome to the Save the Elephants Family! With your help we aim to secure a future for elephants in this rapidly changing world.

As we develop new ways to address the poaching crisis our applied research is proving a crucial foundation. We sounded the first alarm bells about the current crisis and continue striving to provide the most accurate data on levels of threat, and ensure that proposed solutions are based on evidence.

On the ground, your support will strengthen our capacity to meet the needs of elephants. Using our elephant tracking systems we pioneered, we continue to bring partner NGO's and governments across Africa data they need to help elephants and people to live in harmony.

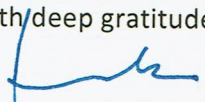

The news that China will implement a near ban on ivory by the end of 2017 is the best news elephants have had in many years. Save the Elephants is proud to have played a central and catalytic role in sharing awareness with the Chinese to help enable this policy shift. We are active in growing the coalition of individuals and organisations to tackle the ivory trafficking. We are now focusing resources on the emerging threat of the secondary ivory markets that are mushrooming in neighbouring nations such as Vietnam, Laos and Cambodia.

Beyond ending demand, you are now part of a movement we helped found to stop the killing and the trafficking of ivory. We are making important advances in both these areas, with our expertise and technologies at the centre of a coalition of like-minded, highly focused partners.

Thank you again for believing in our work. Your support is a huge encouragement. We feel there is real hope for the future of elephants, however insurmountable the challenges may seem.

I have great pleasure including our 2016 Annual Report and hope you will take a moment to read what we can accomplish with your support.

With deep gratitude,

Frank Pope
