ALTTEX

SECURE SMART SAFE

Cryptocurrency capitalization has been growing in recent years (A surge from \$11 billion to \$500 billion between Q1 and Q4 2017), but there are still challenges for users. Currently, only small percentage of users are able to save all crypto-currencies in one secure location. To meet this challenge, we have developed a special application called 'Smart Safe', and also receive push notifications indicating changes in crypto prices and your current profit for a selected period.

CRYPTO-EXCHANGE IN MOBILE APP

The ALTTEX cryptocurrency exchange is decentralized. As the crypto-market, and its respective cryptocurrency, is not stored in one place, the exchange is safer and more reliable. The purchase and sale of cryptocurrency using the ALTTEX exchange is devoid of intermediaries; which also minimize commission payments for the end user.

ALTMESSENGER WITH CUSTOM STORE

Our crypto-messenger feature allows you to keep in touch with all your contacts, anytime, anywhere. Start a private chat or create public groups and channels, and even add items within the application and sell them for any cryptocurrency. It's convenient, easy!.
